

Fall Open Garden Day

*with the UC San Joaquin
Master Gardeners*

*Saturday, October 22
from 9 a.m.-12 p.m.*

Our Fall Open Garden Day will feature: pruning, irrigation, and planting demonstrations. There will also be a vermi-composting display and kid's craft activities so bring your junior gardeners. Master Gardeners will be available to answer your gardening questions.

The demonstration garden was created to showcase sustainable landscaping principles and the many varieties of plants and edibles that can be grown throughout the year in our Mediterranean climate.

For more information, call 209-953-6112

The event is free, and registration is not required.
